CAREER COUNSELING AND PLACEMENT CELL

About the Cell:

In the changing scenario, counseling cell plays a vital role in an educational institution. Education stands for an overall development of a student and thus counseling cell, a facilitator. The Career Counseling and placement Cell provides personal and Professional guidance to students of all the departments of the College.

Career counseling through the placement cell helps students identify their interests, skills, and strengths. Many students in rural areas may not be aware of the diverse career options available to them. A placement cell dedicated to career counseling can organize workshops, seminars, and aptitude tests to help students discover their true potential. By identifying their aptitudes and interests, students can make informed decisions about their career paths, thereby increasing their chances of finding fulfilling employment.

The placement cell aims to bridge the gap between rural students and industries. Rural colleges often face challenges in establishing connections with companies and organizations. However, an active placement cell can establish strong ties with local industries and businesses, creating opportunities for internships, training programs, and job placements. By collaborating with industries, the placement cell can gain insights into the job market trends and requirements, enabling them to provide students with accurate and up-to-date information about various career options.

Objectives:

- To Provide Proper guidance to the needy Students.
- To promote career guidance & counseling through lectures by experts from different fields.
- To organize seminars on interview skills, personality development, communication skills, leadership skills, resume writing, analytical skills, quantitative ability, verbal and reasoning skills essential to all competitive exams.
- To organize the Campus Interviews and Placement opportunities for Students.
