Best Practice –I 2023-2024

1. Title of the Practice: Health Care Awareness Camps and Programs

2. Objectives of Practice

- To educate communities on health issues and preventive measures.
- To encourage healthy practices and early detection of diseases.
- To offer basic check-ups for early diagnosis.
- To organise programs to promote nutrition, physical activity, and wellness.

3. Context

This practice aims to educate communities on preventive health, provide medical check-ups, and promote healthy lifestyles. These initiatives focus on raising awareness about common health issues, encouraging self-care, and improving access to healthcare in underserved areas.

4 The Practice

We associate with Malali PHC and organized a health workshop, signing an MoU with the Taluka Health Office to conduct health programs, check-ups, and camps. NSS special camps in Mughalkhod, Nagaral, and Malali highlighted the need for health education, leading to ongoing awareness activities to improve villagers' health and fitness.

5 Evidence of Success

- Over 80% of villagers gained healthcare knowledge and awareness of local facilities.
- 08 health related programmes on malaria, dengue, and other illness.
- Participation increased by 30% after health programs.
- Positive feedback was received from beneficiaries and healthcare professionals.
